The Attractive Way to Organize and Protect Cable

CED135
installed in Arlington's
TVBU505 box

CED135
w brush
opening

CED135WP installed

Arlington's Cable Entry Devices deliver good looks and efficient cable management. They're easy to install and perfect for organizing and protecting low voltage cable.

The new CED135 has a brush-style opening. And the CED130 has a new style slotted opening.

Both are available with a decorator-style wall plate.

CED135WP
w wall plate

- Easy insertion of individual cables or a bundle of Class 2 low voltage wiring
- Extra secure support for the installation Mounting holes in the entry devices allow for the attachment of a decorator-style wall plate to the low voltage side of a box
- CED130 installs facing in or out
- Allow the pass-through of large connectors including HDMI's

CED130
facing in and out

Installation Instructions

Use one or more of Arlington's low voltage mounting brackets (not supplied) to install The SCOOP™.

- 1 Use the mounting bracket as a template to cut hole for entry location. Attach the mounting bracket to the wall.

- 2 Feed wires through The SCOOP™ (CED1), facing in or out, as desired. Attach to the mounting bracket with the supplied screws. Repeat as necessary.

- 3 Connect wires to equipment.
