

Service Manual

Air Purifier

(North America Market)

FV-01VCN1

⚠ WARNING

This service information is designed for experienced repair technicians only and is not designed for use by the general public. It does not contain warnings or cautions to advise non-technical individuals of potential dangers in attempting to service a product. Products powered by electricity should be serviced or repaired only by experienced professional technicians. Any attempt to service or repair the product or products dealt with in this service information by anyone else could result in serious injury or death.

IMPORTANT SAFETY NOTICE

There are special components used in this equipment which are important for safety. These parts are marked by ⚠ in the Schematic Diagrams, Exploded Views and Replacement Parts List. It is essential that these critical parts should be replaced with manufacturer's specified parts to prevent shock, fire or other hazards. Do not modify the original design without the manufacturer's approval.
Please have a static electricity depletion process in place before handling these components..
Please use gloves when handling PCB parts during the repair process..

Main Label

Panasonic
Air Purifier / Purificateur d'air

LISTED 5021462
UL US
Intertek

Model No. / Modèle : **FV-01VCN1**
AC 120 V 60 Hz 0.05 A
Conforms to UL STD 867
Certified to CSA STD E60366-2-65 /
Conforme à la norme UL STD 867
Certifié CSA STD E60366-2-65

Serial No. / N° série

Panasonic Corporation of North America
Assembled in Mexico / Assemblé au Mexique

3.Wiring Section

FV-01VCN1

When replacing the Lead Wire or Main PCB, please be sure to hold the Main PCB in place before pulling out the lead wire. Otherwise the PCB may be deformed or damaged because it does not have screws.

Always take measures to prevent electrostatic discharge when handling these parts.
