⚠ WARNING

This service information is designed for experienced repair technicians only and is not designed for use by the general public. It does not contain warnings or cautions to advise non-technical individuals of potential dangers in attempting to service a product. Products powered by electricity should be serviced or repaired only by experienced professional technicians. Any attempt to service or repair the product or products dealt with in this service information by anyone else could result in serious injury or death.

IMPORTANT SAFETY NOTICE

There are special components used in this equipment which are important for safety. These parts are marked by ⚠ in the Schematic Diagrams, Exploded Views and Replacement Parts List. It is essential that these critical parts should be replaced with manufacturer's specified parts to prevent shock, fire or other hazards. Do not modify the original design without the manufacturer's approval.
Please have a static electricity depletion process in place before handling these components..
Please use gloves when handling PCB parts during the repair process..

WARNING:
Before servicing or cleaning unit, switch power off
at service panel and lock service panel to prevent
power from being switched on accidentally.

CAUTION:
1. Not for use in cooking area. See installation instructions.
2. Use only on 20 ampere branch circuit.

AVERTISSEMENT:
Avant de nettoyer ou de faire l'entretien de l'appareil, couper
l'alimentation sur le panneau de service et verrouiller le dispositif
d'alimentation afin de prévenir tout rétablissement accidentel.

ATTENTION:
1. Non destiné à la zone de cuisson. Voir instructions d'installation.
2. N'utiliser qu'un circuit terminal de 20 ampères.
