

# V-Gard® Helmet Accessories

**WE KNOW** WHAT'S AT STAKE.

## Suspensions & Features

### Fas-Trac® III Ratchet Suspension

Provides exceptional comfort, reducing pressure points while increasing stability.

### 1 Touch® Suspension

Getting a better helmet fit is easier thanks to this one-handed, adjustable helmet suspension system.

### Staz-On® Suspension

Designed for easy clip-in to the V Gard hat or cap shell, users can adjust the liner for a secure and comfortable fit.

### Self-Adjusting Straps

#### Shock-absorption system

The double bands/straps fitted to the Fas-Trac III Suspension maximize quality and comfort while helping to keep you safe.

The principle function of the double straps is to absorb energy in the event of impact, distributing it to the four support points, at the same time as it embraces the user's head, forming a shock-absorbing system. In addition, it only has a single stitching point, which makes equipment inspection easier and helps to provide for the everyday safety of the worker.

### Sizes

#### Greater coverage

Only a market leader understands the need for greater coverage in pursuit of satisfying all workers.

As well as being extremely comfortable, the MSA V-Gard cap and suspension system come in three different sizes, offering the widest range of fit in the market (6–8½"). helping to provide the perfect fit for a diverse work force.

### Sweatband

#### Based on comfort

For MSA, it's not efficient if it's not comfortable.

The basis for everything is comfort, and that's why MSA is always looking for new technologies and solutions that meet the demands of an ever changing workforce. With the aim of absorbing the maximum amount of the user's sweat, the sweatband on the Fas-Trac III Suspension is made of a coated and perforated foam, which together ensure absorption, sweat evaporation, worker comfort, and easy cleaning. The sweatband fitted to the V-Gard is supplied stitched-on, to avoid the loss or unnecessary replacement of items.

## Hearing & Face Protection

V-Gard Hearing Protection, Low

V-Gard Hearing Protection, Medium

# Helmet Customization For 30+ Years

## Practice makes *perfect* logos

- MSA uses inks and processes that create durable logos.  
**We have never had a complaint about a logo “scratching off” in the 30+ years we have been in the logo business!**
- It can be tricky to avoid logo distortion due to the curvature of the hard hat. That’s why MSA Logo Express® Service employs graphic designers who process logos onto hard hats. These skilled artisans ensure each logo is placed properly so it not only endures, but also accurately represents your brand and logo in color, size and shape—despite the curve of the hard hat.
- MSA offers multiple printing services from simple one-color logo to digital photos, in up to four locations
- We don’t require “color-separated” artwork for 1+ color logos; nor do we require customers to identify the PMS colors in their logos. Our graphic artists can manage that, if you do not have these details.
- Re-ordering is easy because we keep your logo on file until you change it¹.

## Our Process

Once your order has been received by the MSA Logo Express Service Design center we get to work. Files are imported from your on-line hard hat configuration, assessed for usability and colors separated (if the PMS colors have not been identified) and layout finalized.

## Delivery

Once the layout process is complete, our factory craftsman get to work on your order. Your order for a new hard hat logo should ship within eight (8) days from our Murrysville, PA plant from the date we receive your approval on the artwork².

<sup>1</sup> Files are purged from MSA’s system if no logoed hard hat order is received within three (3) years of the first order.

<sup>2</sup> Orders for repeat logos ship within seven (7) days. This includes 2-3 days for order processing, and 5 days for production.

Note: This Bulletin contains only a general description of the products shown. While product uses and performance capabilities are generally described, the products shall not, under any circumstances, be used by untrained or unqualified individuals. The products shall not be used until the product instructions/user manual, which contains detailed information concerning the proper use and care of the products, including any warnings or cautions, have been thoroughly read and understood. Specifications are subject to change without prior notice. MSA is a registered trademark of MSA Technology, LLC in the US, Europe, and other Countries. For all other trademarks visit <https://us.msasafety.com/Trademarks>.

## Striping

Add any of 27+ different reflective and retro-reflective stripes to your hard hat. MSA reflective stripes help enhance the visibility of workers in daytime conditions, while retro-reflective stripes offer additional enhancement in nighttime or low-light conditions. Stripes are available in various sizes and shapes, and can be placed on all types of MSA hard hats.

Keep in mind too, that while you can order more stripes for self-application, MSA does not recommend doing this. The reason for this is MSA pre-treats all hard hats prior to striping with an electrical discharge treatment to enhance the ability of the stripes adhesive bonds.

## Stock Logos and Slogans

With 23 “pre-built” stock logos and slogans, MSA offers more “off-the-shelf” hard hat graphics than anyone in the industry. Standard logos make it easy for you to place emphasis on safety, patriotism or personnel identification without having to develop your own artwork. They can be used alone or with your customized logo and striping.

## Hard Hat Color Choices

MSA offers more stocked color options than competitors—in our popular V-Gard hard hat, we offer 21 stocked colors. There are non-stocked color options available for all MSA hard hats; a qualifying MOQ of 100 hard hats is required.

***You can create a shell color of your choice. You need only order a qualifying MOQ of 500 hard hats or more.***

MSA operates in over 40 countries worldwide. To find an MSA office near you, please visit ***MSAsafety.com/offices***.
