

WhisperControl® Low Voltage Timer

WhisperControl®

Models: FV-SWL1060

Dimensions: H 4-1/8" x L 1-5/8" x D 3/4"

Use the Powerful Boost Mode with your BalancedHome™ and Intelli-Balance® Elite and Elite Plus+ ERVs for Optimal Ventilation

When the push-button WhisperControl® Low Voltage Timer is activated for pre-set times, the supply and exhaust air are maintained at the maximum CFM of the Energy Recovery Ventilator (ERV), providing high-performance air exchange.

KEY FEATURES

Boost Mode Options for ERVs – Comes with 10-, 20-, 40- and 60-minute timer countdown options.

Optimal Ventilation – Use of Boost Mode allows for maximum ventilation to improve indoor air quality.

Compatibility – Compatible with all BalancedHome™ and Intelli-Balance® Elite and Elite Plus+ ERV models (FV-15VE1T, FV-15VE1S, FV-12VE1T, FV-12VE1S, FV-16VEC1T, FV-16VEC1S, FV-13VEC1T, FV-13VEC1S, FV-15ESC1, FV-12ESC1, FV-14ES1 and FV-11ES1).

Timer Settings – Backlit for easy adjustment. Press the activation button one to four times to reach the minute setting you want.

Warranty – One Year.
